COMPANY SUMMARY

SMS360 is a program management firm built around the need of our clients for the singular experience of design, construction, maintenance and management of facilities and emergency response. Due to our experience, technology and past performance, our team was awarded one of the largest federal contracts (15 Billion Dollars) provided to a small business for facilities management. This contract administered by the General Services Administration can be used to quickly deploy federal dollars into facilities and emergency response activities.

CORE COMPETENCIES

- **Sterilization and Testing of Large-scale Facilities**

CORPORATE EXPERTISE

SMS360 brings vast, real-world experience to bear on each of the important phases of Crisis and Emergency Management. Our team is comprised of industry professionals with a variety of backgrounds, ranging from field experience in crisis situations to leadership positions and management roles for local, state, federal and military, who have been tempered and tested by responding to multiple incidents over several decades. We are experts in the National Incident Management System (NIMS) and the Incident Command System (ICS), and utilize proven tools and methodologies for planning, including guidelines as established by the Department of Homeland Security, The National Fire Prevention Association, ISACA, the Disaster Recovery Institute International, the Business Continuity Institute, among others. SMS360 is committed to providing meaningful solutions and services to assist organizations and governmental entities in the response to and mitigation of emergency and disaster incidents.

STERILIZATION INITIATIVES

SMS360 offers sterilization and decontamination services for a wide range of circumstances by removing, neutralizing or destroying any harmful substances or contagions. Our on-site sterilization technology can produce over 800 gallons of sterilizer and 1,200 gallons of cleaner per day. Our program costs of less than \$0.30 per square foot for cleaning, sterilization, testing, and measurement and verification, is among the lowest in the country. We have the technical expertise, manpower, and equipment to decontaminate all sizes and types of facilities and waste for:

- **Biohazards and pathogens**
- RCRA closure of hazardous waste storage areas
- PCBs and oil
- Animal waste matter and rodents
- Individual chemical tanks and large plating tanks
- Heavy metals and chemicals

As a single-source provider, one call anywhere in the continental U.S. will give you access to an SMS360 Team that handles all aspects of sterilization, decontamination, including panning/sequencing, obtaining permits, waste management, health and safety, testing, final sampling for closure reporting.

Our Team Members have been involved in numerous major events including:

- **California** – assisted with landslides, train wrecks, shipwrecks, pipeline ruptures into oceans, lakes, streams, working with fish and game, and coast guard "OSRO" teams, major oil and gas companies, power companies responding to spills, overflows, and weather-related needs
- **Louisiana** - helped at many levels during hurricane Katrina. Manage teams of locals responding to all ESF needs, ESF 10 supporting parishes' police, fire, sheriff offices with crews including car wrecks, HAZ needs (cleanups) and fires
- **Texas** - helped in many areas supporting humanitarian needs during Harvey, worked with TNRCC in the assist and UST cleanup program, assisted in investigation of superfund locations in the state in all phases of the project
- **New Mexico** - assisted in the first site environmental assessment at Los Alamos labs supporting the federal agency's owning radiated material (liquid and solid)
- **Florida** – managed teams providing blue tarp services to neighborhoods in the aftermath of Hurricane Michael
- On the ground at the Gulf Oil Spill, the Stolthaven Terminal Chemical Spill, and numerous other major Hurricanes
